HARDWARE

Baseband
- Non-Secure Internet Protocol Router (NIPR)
- Secure Internet Protocol Router (SIPR),
- Joint Worldwide Intelligence Communications System (JWICS)
- Centcom Regional Intelligence Exchange System (CENTRIX)
- Commercial and Net Equipment

Mobile Satellite Services
- Satellite Phones
- Secure Personal Digital Assistants (PDAs)
- Cell Service Development

Ancillary Items
- Computer
- Mounting/installation hardware
- Shelters
- Facilities
- Spare Parts
- Tools
- Test Equipment
- Materials
- Consumables
- Hardware

Tactical Communications Platforms
- Mobile Broadband Global Area Network Access Capabilities (MBAC)
- Satellite Communications (SATCOM) Terminals (LARGE)
- Very Small Aperture Terminal (VSAT)
- Hand Held
- Highly Mobile Communications, Very High Frequency (VHF)
- Ultra High Frequency (UHF)
- Ku, Ka, C, X, L, Land Mobile Radio (LMR)
- Warfighter Information Network-Tactical (WIN-T) systems
- Subsystems
- Nodes
- Point of Presence (PoPs)
- Components
- Interfacing communications transmitters
- Receivers
- Antenna
- Power supplies
- Communications vehicles
- Platforms
- Enclosures
- Control systems
- Software

SERVICES

- Hardware, Firmware & Software
- Technology Integration
- Insertion and System Upgrades
- System and Network Configuration
- Testing and Certification
- System Management
- Management Data
- Operation and Maintenance
- Verification and Acceptance Testing
- Integrated Logistics Support
- Training
- System/Facility Installation and Operation

- Satellite Services (when applicable waivers have been granted)
- Modeling and Simulation
- Engineering Services and Data
- Logistics Data and Documentation
- Spare Parts
- Telecommunications Security
- Information Assurance
- Depot Support on a regional basis
- Interoperability
- Engineering Services
- Configuration Management and Control
- Safety
- Human Factors
